

Discover the magic
of a summer
filled with
**Wonder
Weeks!***

Expect unique, exciting experiences for:
Toddlers | Preschoolers | School-Age Students

Wonders of Water

Children investigate and explore water through hands-on experiments, water games, and play. Learn about water-loving animals, the science of water, and water's importance to us and the environment.

Wonders of Storytelling

Folklore, pretend play, heroes, myths, magic, and more—this week is legendary! Children investigate fantasy and superheroes through costumes, dramatic play, storytelling, and illustration.

Wonders of the Garden

Discover the magic and beauty of the botanical world through observation, questioning, and experimentation. We will revel in the natural world to foster curiosity and connection to plant life.

Wonders of Nature

Ready, set, explore outdoors! Children engage in nature play and building relationships with nature to become stewards of the environment and to understand their role as caretakers of the natural world.

Wonders of Games

Children will imagine, invent, and create unique games to play and develop exciting adventures to enjoy with peers, as they stretch their minds and bodies to enhance their collaboration skills.

Sign up today!
Ask your school for details.

Wonders of Crafts

Classrooms become makerspaces where children discover artistic media, become artisans, and learn new techniques for crafting. They embrace their imagination to create, craft, and make new things.

Wonders of Design

We're building up and out with 3-D construction! Children reach for the sky to design, engineer, and build structures with various materials and techniques. We'll explore stability, balance, and strength.

Wonders of Sound

Brrng, kerplunk, buzz, clackety-clack, thump!
Children leap into the world of sound and listen to rhythms and noises to inspire their own creative beats, with traditional and non-traditional instruments.

Wonders of Invention

Think, create, and dream BIG! Whether building a machine to solve a problem or creating an imaginary friend, children play independently and collaboratively to keep imagination alive!

Wonders of Mess Making

Let's make a mess! Children will experiment, concoct, and discover with wonderfully messy materials. Through scientific inquiry and curiosity, things are about to get messy!

OUR COMMUNITY OF LEARNING CARE GROUP SCHOOLS

*The length of camp programming, plus schedule of activities and themes, may vary by school, location, and enrollment date. Age restrictions apply. See school for details.
